## HDPE POLYETHYLENE DISPOSABLE BAILERS

Sample Safe disposable bailers are ready to use right out of the box. Sample Safe is high quality. Made from pure, high-density polyethylene resin to give you the maximum level of confidence and consistency in a disposable liquid sample bailer. Each Sample Safe bailer is purified with Liqui-nox detergent and rinsed with de-ionized water before being individually sealed in plastic bags for sample integrity. Sample Safe's rounded ends and low-sag cord cleat, cut down on hangups. The easy-in angled nozzle provides check-valve control for convenient sample removal. The weighted model of Sample Safe is for deep well sampling and other uses where the added convenience of a weighted bailer makes sense.

### Bailer to Sample 1" thru 1-1/2" Pipe

**\$ 7.85** .75" x 3' 3/4" O.D. x 3' 230 ML Disposable Bailer. Manufactured with a  
75X3PDB specific gravity greater than water for easy filling and sinking without added weights. Bailer is completely assembled and includes both a slow and a fast bottom emptying device. Bailers are individually bagged and packaged 25 bailers to a full case.

### Bailers to Sample 2" & Larger Pipe

**\$ 9.70** 1.5" x 3' 1.5" O.D. x 3' 1000 ML Disposable Bailer. Manufactured with a  
15X3PDB specific gravity greater than water for easy filling and sinking without added weights. Bailer is completely assembled and includes both a slow and a fast bottom emptying device. Bailers are individually bagged and packaged 25 bailers to a full case.

**\$ 10.75** 1.6" x 3' 1.6" O.D. x 35" 1000 ML Weighted Bailer. The weighted Sample  
16X3WPDB Safe is a top-quality single check valve device for deep well sampling and other uses where the added convenience of a weighted bailer makes sense. Bailer is completely assembled and includes only a fast bottom emptying device. Bailers are individually bagged and packaged 25 bailers to a full case.

## 100% VIRGIN TEFLON DISPOSABLE BAILERS

For your most sensitive environmental sampling jobs or applications where HDPE polyethylene is not acceptable, these teflon disposable bailers are your answer. Stocked in Denver in the 3' length shown below. Available from the factory in a 12" or 1' length (.70" x 1' Bailers = \$ 14.00 and 1.5" x 1' Bailers = \$ 19.50); however these shorter bailers must be ordered in full cases only and will be shipped direct to you from the factory.

### Bailer to Sample 1" thru 1-1/2" Pipe

**No Longer** .70" x 3' 7/10" O.D. x 3' 200 ML Teflon Bailer. Manufactured from 100%  
7X3TDB virgin grade FEP Teflon with a specific gravity greater than water for easy filling and sinking without added weights. Constructed with a thicker wall (.015") material for better durability and easier handling. Bailer is completely assembled and includes both a slow and a fast bottom emptying device. Bailers are individually bagged and packaged 12 to a full case.

### Bailer to Sample 2" or Larger Pipe

**\$ 54.90** 1.5" x 3' 1.5" O.D. x 3' 1000 ML Teflon Bailer. Manufactured from 100%  
15X3TDB virgin grade FEP Teflon with a specific gravity greater than water for easy filling and sinking without added weights. Constructed with a thicker wall (.015") material for better durability and easier handling. Bailer is completely assembled and includes both a slow and a fast bottom emptying device. Bailers are individually bagged and packaged 10 to a full case.
