## 5, 7, & 10 GPM DEEP SET SUBMERSIBLE PUMPS

4F05A20	5 GPM 2 HP DEEP SET PUMP END ONLY	4F05A20	\$ 1279.00
4F05A30	5 GPM 3 HP DEEP SET PUMP END ONLY	4F05A30	\$ 1624.00
4F07A30	7 GPM 3 HP DEEP SET PUMP END ONLY	4F07A30	\$ 1427.00
4F10A50	10 GPM 5 HP DEEP SET PUMP END ONLY	4F10A50	\$ 1702.00
2 HP 1500# Thrust 4" 230V 3 Wire Single Phase Motor		138164	\$ 889.00
2 HP 230V Single Phase Franklin Control Box		126321	\$ 145.00
3 HP 900# Thrust 4" 230V 3 Wire Single Phase Motor		139422	\$ 701.00
3 HP 230V Single Phase Franklin Control Box		126322	\$ 179.00
3 HP 900# Thrust 4" 230V 3 Wire 3-Phase Motor		139424	\$ 593.00
3 HP 230V 3-Phase Magnetic Starter with 3 Heaters		33STARTER	\$ 447.00
5 HP 1500# Thrust 4" 230V 3 Wire Single Phase Motor		137456	\$ 1080.00
5 HP 230V Single Phase Franklin Deluxe Control Box		135269	\$ 294.00
5 HP 1500# Thrust 4" 230V THREE Phase Motor		137470	\$ 1035.00
5 HP 1500# Thrust 4" 460V THREE Phase Motor		137472	\$ 1035.00
5 HP 230V or 460V 3-Phase Magnetic Starter with 3 Heaters		53STARTER	\$ 447.00

Flint and Walling 4" deep set submersible pumps are designed for wells that are deeper than normal. The deep set series can be used in wells deeper than 1000 feet, where other pumps can not perform. The F&W deep set submersible pumps feature 1-1/4" NPT cast iron discharge with NEMA faced mounting ring, integral stainless steel poppet check valve with elastomer sealing ring, stainless steel pump shell and cable guard, steel intermediate connection, space age thermoplastic impellers and diffusers, and stainless steel hex drive and motor coupling. These deep set pumps use Franklin Electric motors with higher thrust than normal motors.

Use 1-1/4" ductile iron check valves every 100' of vertical drop pipe.
