Rod Wrenches for Wood Rod \$ 82.00 Each

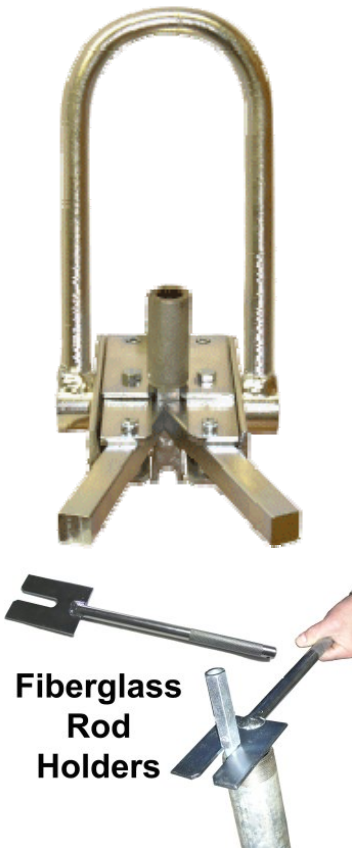

118RODWRENCH
138RODWRENCH

These rod wrenches are used to connect wood rod together. The design gives you a secure way to grip the rod couplings to tighten them together.

Rod Elevator for Wood Rod and Fiberglass Rod

\$ 206.00 NIXELEVATOR

This custom rod elevator is designed to lift and hold your wood or fiberglass pump rod that has flats, when servicing your windmill well. Spring loaded fingers in the front prevent your rod from sliding forward, making this a very secure method of holding onto the rod while connecting the next length of rod to the rod in the well. The heavy metal bail is designed to be secure with either the wood rod which has flats on the area below the coupling, or with fiberglass rod that has flats on the coupling. Our rod elevator is rated for up to 1200 pounds of non shock weight.

**Fiberglass
Rod
Holders**

FIBERGLASS ROD HOLDERS

Fiberglass Rod Holders are available in 5/8" and 3/4" sizes. These go under the rod coupling to support the rod while you put the next piece of rod onto the rod going into the well.

58SRHOLDER	5/8" Fiberglass Rod Holder	\$ 35.00
34SRHOLDER	3/4" Fiberglass Rod Holder	\$ 35.00

YOU CAN COMBINE SUCKER ROD WITH OTHER ITEMS IN OUR CATALOG TO QUALIFY FOR OUR \$ 1,000.00 FULL FREIGHT PREPAID ORDER POLICY
