Page 68

\$ 43.75  
DT15

## CONVERTIBLE ENERGY SAVER DEVICE

**DT15 Convertible Tank Deicer** can be used as a floating or sinking deicer safe in plastic tanks without a guard. 1500 Watts. Durable die cast aluminum finned heating element is virtually indestructible. Multiple heat sensors improves temperature control while keeping tank free of ice. Runs cooler to the touch. 6' cord 7" wide element.

## HEATED WATER BUCKETS

\$ 98.25  
16HB

**16HB 16 Gallon heated water bucket** is excellent for horses and small livestock animals to keep water thawed. Thermostat controls heating element in bucket wall. 260 watts.

\$ 49.25  
20FB

**20FB 5 Gallon flat back heated bucket** is easy to hang on a stall wall to keep horse water from freezing. Heating element is built into the bucket wall and is thermostic controlled. 130 watts.

\$ 23.75  
5BH

**5BH Bucket Holder for 5 gal bucket**

## TANK SIDE MOUNT DE-ICER / HEATER

\$ 169.25  
71502

**71502 Thermostatically controlled tank side mount deicer** prevents livestock from dislodging from tank. Large heating element is designed for long life.

\$ 28.00  
7621

**7621 1000 Watt deicer** has styrofoam float encased in a rugged plastic housing. Cord comes out of top side which improves stability of heater.

\$ 29.75  
7521

**7521 1500 Watt deicer** constructed like above floating unit.

\$ 12.00  
88R

**88R Guard** for use with floating deicers.

## SUBMERSIBLE TANK DEICERS / HEATERS

\$ 76.00  
15CA

**15CA Cast Aluminum 1500 watt heater** has heating element built into the casting wall for long life.

\$ 40.00  
10N

**10N Submersible deicer 1000 watt** with metal guard stand to allow use with plastic or metal tanks. Sets on bottom where livestock are less likely to bother it.

\$ 41.00  
15N

**15N Submersible 1500 watt deicer** just like the above submersible model.

## DRAIN PLUG STOCK TANK DEICER

\$ 50.25  
99DP

**99DP 1500 watt drain plug** model can be used with plastic or metal tanks that have a drain hole. Cord separates to allow easy installation through even a 3/4" hole. Adjustable stand-offs make unit stable in tank bottom. Thermostat has automatic shut-off if water level gets low.

\$ 38.75  
DT250

**DT250 250 watt bucket deicer** has 10' cord and sturdy aluminum body. Does not overheat the water. Safe for plastic bucket. Multiple sensors provide efficient temperature control. 4-3/4" wide.

## HEATED WATER HOSE FOR RV's & CAMPERS

\$ 117.00

**H25 25' Heated water hose with plug** for running water 24/7 even during the winter. 180 watts.

\$ 168.00

**H50 50' Heated water hose with plug** 360 watts

\$ 31.75

**TC035 Thermostic control for heated water hose.**

NOT FOR HEATING WATER WITH ANY HUMAN CONTACT – FOR STOCK TANKS ONLY
