The Zoeller Qwik Jon can be installed anywhere you need a toilet

The Zoeller Qwik Jon is a waste water and sewage removal system that can be installed anywhere, without the need to break concrete. Excellent for basements, new homes, cabins, workshops or garages, pool houses or commercial buildings.

Qwik Jon comes complete with everything except the toilet fixtures and piping. You get the Qwik Jon tank, lid and gasket, floor flange extender kit with wax rings, sewage check valve, Qwik Jon fittings and hardware, as well as step-by-step installation instructions. Qwik Jon 101 you get the Zoeller WM211 4/10th hp, 115 volt, sewage pump. Qwik Jon 102 you get the Zoeller WM266 1/2 hp, 115 volt, 10.4 amp sewage pump that passes 2" spherical solids,

The Qwik Jon pushes the limits of the "Laws of gravity". Qwik Jon allows you to pump waste water and sewage uphill. This allows you to install a bathroom almost anywhere.

Qwik Jon will pump in any direction, is very quiet, leak proof and odorless. The tank and piping can be hidden below a 2 x 6 sub floor and behind a false wall.

Qwik Jon can be installed Free-standing on any solid level surface, allowing you to turn a closet into a bathroom.

for All Model Qwik Jons except new 203 unit ----- **\$ 389.00**

Zoeller Ultima Qwik Jon Sewage Removal System

Zoeller New Ultima Qwik Jon #203 uses a 1/2 hp mini-grinder pump with a 1" discharge. The ABS white tank sits right behind your toilet flat on the floor, with the pump inside. The toilet you need to get is a back discharge unit. This Qwik Jon unit does not require you to build a sub floor for it to go into. Will accommodate your sink and tub. Perfect for basements, garages, workshops, pool houses and cabins.

This new Ultima Qwik Jon is more compact and does not require a 2" x 6" sub floor to install the unit into. It sets flat on your level floor. This eliminates the need to have a step up in your bathroom
