DUPLEX PUMP CONTROL PANELS

The states of CT, RI, ME, IL, VT, MN, NY, MA, & CA can not use mercury floats – must buy special #100744 floats

#10-0092 “E-Pak” is an Electrical Alternator Duplex Pump Control Panel that will control the operation of a two pump sewage or dewatering system. Price includes three #10-0225 Zoeller sensor floats which allows you to alternate the operation of the two pumps, operate both pumps in a high water condition, and activate the alarm if there is a high water condition that both pumps running can not control. Panel has a Nema 1 enclosure. Both panel and sensor floats are UL listed. Alarm system has both a visual light and an audible horn. Built-in circuit breakers, HOA switches, and pump running indicator lights are all included in the “E-Pak” panel.

#10-0092 \$ 633.00 “E-Pak” includes 3 sensor floats and an alarm system.
100092 Rated up to 16 amps maximum for use at either 115 or 230 volt.

#100093 \$ 706.00 Nema 4x Outdoor Panel includes 3 sensor floats and alarm system.
100093 Rated up to 20 amps maximum for use with either 115 or 230 volt.
Nema 4x has external warning light.

HIGH WATER ALARM PACKAGES

The states of CT, RI, ME, IL, VT, MN, NY, MA & CA can not use mercury floats – must buy special floats.

#1005481 \$ 162.00 Tank Alert XT Indoor / Outdoor High Water Alarm Package has a
1005481 Rugged weatherproof thermo-plastic enclosure that allows for outdoor installation. This alarm package includes a 15’ sensor float switch, a loud horn, and a warning light. It also includes an optional terminal block that allows for the incoming power line, pump power cable, and alarm sensor floats to be connected in an outdoor rated enclosure.

#1009214 \$ 213.00 Same as the 1005481 except it has auxiliary wires for going to a remote
1009214 alarm system.

#1005835 \$ 169.00 Tank Alert XT Indoor / Outdoor Low Water Alarm Package with
1005835 drinking water float warns you of a low water situation such as an empty cistern.

#10-1494 \$ 79.00 Tank Alert I Alarm Package is designed for indoor use and is a high
101494 water warning device. It comes with a 15’ sensor float switch, has a loud horn, and a warning light. Nema 1 enclosure.

#1011424 \$ 105.00 Tank Alert I Indoor Low Water Alarm Package w/drinking water float
1011424

SENSOR FLOAT CONTROLS

#10-0744 \$ 25.00 Non-Mercury sensor float for panels **normally open** control used with
100744 Control panels. 20’ cord.

#01-1832 \$ 25.00 Identical to the #10-0744 above.

#10-0225 \$ 28.00 Sensor float with internal weight is a **normally open** control used with
100225 alarms and alternator packages. It has a 15’ open-end cord and can be used in either 115 volt or 230 volt installations.

#10-0022 \$ 38.50 Same as the #10-0225 above except with a 35’ cord.

#1002152 \$ 40.75 #15-SWE-NO **normally open** sensor is the same as above, except it
1002152 has an external adjustable weight attached to the 15’ cable. It is used in any application where the float is suspended from above, rather than being attached to the pipe. We also stock 15SWINO internal weighted.

#1006047 \$ 30.50 Sensor float switch with 15’ open-end cord that is **normally closed**.
1006047 Rated 5 Amp at either 115 volt or 230 volt. Float is not weighted, but comes with pipe clamp tie to control alarm activation level. Drinking water rated for low water alarms.
